

Unlock Efficiency and Growth with Bluebeam

Are you getting the most out of **Bluebeam Revu**? Our proven process **helps your team save time, uncover hidden efficiencies, and streamline workflows**.

With the Unlock Bluebeam Efficiencies Package, you'll gain insight into gaps, uncover overlooked tools, and reveal easy wins for improving day-to-day productivity. Together we'll build a strategic plan to maximize Bluebeam Revu's potential and help your team work smarter, not harder.

Step 1

DISCOVERY MEETING

Meet with a Bluebeam Product Specialist to identify opportunities for productivity gains.

The initial meeting is an opportunity to delve into your business, challenges, and goals. We'll listen to your needs and gain a comprehensive understanding of your current state and desired future state. The goal is to establish a shared vision and determine how we can best support your objectives.

Your discovery includes one or more team members from the following sectors:

Executives

Project Manager or Team Leader from each department utilizing Bluebeam

Team User (power user) to discuss and showcase workflows

Your interactive session will use screen sharing to provide sample workflows you deploy today. Reviewing current workflows helps to highlight bottlenecks and present potential shortcuts.

Reach out to our Bluebeam team to get started today

bluebeam@arkance.us

Step 2

TEAM KNOWLEDGE INTERVIEWS

Explore how your team uses Bluebeam today.

The next step focuses on key members of your team to gain deeper insights into your operations. These conversations will help us understand workflows, identify pain points, and uncover opportunities for improvement from the people who live and breathe your processes every day.

- ✓ Group discussion with key power users
- ✓ Knowledge survey completed with team leads
- ✓ Review of tool chests, profiles, and interface setup

Step 3

TAILORED ROADMAP & PROPOSAL

Your ARKANCE Bluebeam Product Specialist will:

Based on the insights gathered from our discovery meeting and team interviews, we'll develop a customized roadmap and proposal. This document will outline a strategic plan, recommended solutions, and a clear timeline to help you achieve your goals, ensuring a targeted and effective approach.

- ✓ Provide actionable recommendations aligned with your goals
- ✓ Share a customized roadmap for training and consulting
- ✓ Outline steps to ensure smooth adoption across your team
